### **Energy Efficiency Training Center schedules August 2010 classes**

Tonawanda, NY - The Energy Efficiency Training Center, located at 34 Pequet Pkwy in Tonawanda, NY, is offering three training courses in August 2010. The Center is still accepting registration for July 2010 as well. Registration is open for both months.

August 2010 courses include the basic, entry level, insulation and air sealing Level I class on Monday and Tuesday, Aug. 16-17 ; and a Level II class which will be conducted on Wednesday and Thursday, Aug. 18-19 . This course is a continuation of the Level I course, and is designed to further educate the entry level insulation installer. In addition, the Level III Insulation and Air Sealing (Supervisory) course will be held on Wednesday and Thursday, Aug. 25-26.

July courses are the Insulation/Air Sealing Level I class. It will be held on Monday and Tuesday July 19-20, 2010. Also offered will be the Insulation/Air Sealing Level II class. It will be held on Wednesday and Thursday July 21-22, 2010. The Level III Insulation and Air Sealing course will be held on Wednesday and Thursday July 28-29, 2010.

Registration can be made by calling the Center at (716) 692-3676, or by going online line at [www.energyefficiencytrainingcenter.com/registration.html](http://www.energyefficiencytrainingcenter.com/registration.html).

All of the training courses for weatherization offered by the Energy Efficiency Training Center have received the "Recognized Training" designation from the Building Performance Institute (BPI). All are recognized for Continuing Education Units (CEU). All courses taught at the Energy Efficiency Training Center meet the professional standards of the BPI. More information on BPI can be found at: [www.bpi.org](http://www.bpi.org).

In addition, the Energy Efficiency Training Center has earned "Affiliate" status with the Building Performance Institute.

For more details on any of the courses, check out [www.energyefficiencytrainingcenter.com](http://www.energyefficiencytrainingcenter.com), or call (716) 692-3676.

During the start-to-finish two day, hands on training sessions, students will learn how to install attic, wall and floor insulation; implement air sealing procedures, seal ductwork, install vapor barriers, and fulfill additional energy audit requirements.

All courses at the 2,400 square foot state of the art training facility feature open enrollment. That means there are no pre-entry requirements to be met. The training is available to any adult 18 and over who is interested in delivery residential energy efficiency services as a career. More information is available at [www.energyefficiencytrainingcenter.com](http://www.energyefficiencytrainingcenter.com) ; by e mail at [training@energyefficiencytrainingcenter.com](mailto:training@energyefficiencytrainingcenter.com) ; or by phone at (716) 692-3676.

### **The EETC website is your link to home energy/weatherization training.**

The [Energy Efficiency Training Center website](http://www.energyefficiencytrainingcenter.com) includes all the details concerning the Center and the training courses offered. We've added a lot of new photos to give you a visual understanding of the Center and our training methods.

It also includes frequently asked questions and answers, contact information and a downloadable brochure. Registration can also be accomplished online or by [downloading a registration form](#) and then mailing it in. Of course, more information can also be had by simply calling (716) 692-3676.
